

Startups (0-\$500k in annual revenue)

The New Hampshire Tech Alliance created and adopted a new membership structure, effective January 2019. The new model incorporates new and expanded benefits into each membership tier. Historically, the tier structure has been based on revenues and the new tiers include a startup category that has a free one-year membership for new members with revenues under \$500,000. Members with revenues under \$500,000 annually that are renewing their membership also fall under this category and receive additional new benefits over the free new membership.

Benefits
